

PERFECTO₂ Oxygen Concentrator

The Perfecto₂ Oxygen Concentrator is a cost-effective home oxygen concentrator. It incorporates SensO₂ oxygen sensor technology and is available in 5 or 9 litre capacity. The compressor and purge sounds are almost undetectable making this small, quiet unit ideal for use in the home.

It utilises the latest advancements in sieve material which has helped to reduce the weight of the unit while still maintaining the highest oxygen purity at all flow rates. With rigorously tested safety features and durable construction and product design, you are ensured years of reliable service with the minimum of fuss.

Small, quiet and lightweight

No scheduled maintenance for 3 years
- filters can be replaced as necessary

Compatible with HomeFill cylinder refilling system

Impact resistant plastic cabinet

Battery-free power-loss alarm

SensO₂ oxygen purity monitoring

Low flow alarm

All controls are on the front panel and easily within reach of the user.

Depth	Width	Height	Flow Rate	Product Weight	Routine Preventative Maintenance	O ₂ Output
30.5cm	38cm	58.5cm	0.5 - 5 l/min	18.2kg	After 3 years	87 - 96%
