

# QUICKIE Q700 Series

The Q700 power base is designed for performance, boasting intuitive mid-wheel drive handling and SpiderTrac 2.0 Suspension with performance spring for enhanced obstacle climbing capacity and superior traction and handling across multiple terrains.

New Electronics options help ensure users have optimal control of all the QM-7 features by providing accessible solutions such as the PG Drives advanced Colour Joystick with 9cm colour display, adjustable retractable joystick mounts and Ctrl+5 toggles & buttons.

The Sedeo Pro power seating option includes tilt, recline with shear reduction and elevating and articulating legrests. The unique Combi Tilt/Lift seat module allows for a seat height of only 41cm to easily be able to sit at tables while still offering an impressive 30cm seat elevation.

Intuitive mid-wheel drive handling with SpiderTrac 2.0 Suspension
