

AQUATEC Ocean Dual VIP Ergo

The new range of Aquatec Ocean Ergo shower commodes offer personal care solutions for a wide range of physical conditions. The modular design means that the commodes can be adapted by making some simple adjustments or adding some off-the-shelf accessories to suit the users' specific condition or postural needs.

The contoured ergonomic seat encourages more upright and stable positioning, promoting user independence and reassurance.

The Ergo Dual VIP has a seat tilt function with a smart weight shift mechanism to ensure optimal stability. The additional backrest recline of 5° to 35° accommodates more complex postural requirements & contributes to overall user comfort.

Stainless steel frame

Compact and easy to handle with an optimised wheel base for manoeuvrability in small spaces

Extremely stable for additional safety and reassurance

Ergonomic seat encourages more upright seating

Greater adaptability with an increased range of arm and footrest adjustments

Modular design with off-the-shelf accessories for additional flexibility

The Ergo Dual VIP has a **-5° to 40° tilt-in-space** feature with a smart weight shift mechanism to ensure stability. The backrest **reclines 5° - 35°** for additional postural positioning needs.
