

AQUATEC Ocean VIP Ergo

The new Ergo versions of the Aquatec Ocean shower commodes have been designed to make personal care activities easier for user and carer. The range offers personal care solutions for a wide range of physical conditions. User comfort, independence and dignity are key considerations during personal care and the Aquatec Ergo family of commodes encourages a more upright, stable seating position to promote user independence and overall comfort.

The Ergo VIP has a **-5° to 40° seat tilt** with a smart weight shift mechanism that ensures optimal stability while still maintaining its compact footprint.

An extensive selection of positioning, safety, toileting and seating accessories are available to support a wide range of conditions and postural needs. Accessories all carry a 1 year warranty.

Stainless steel frame

Compact and easy to handle with an optimised wheel base for manoeuvrability in small spaces

Extremely stable for additional safety and reassurance

Ergonomic seat encourages more upright seating

Greater adaptability with an increased range of arm and footrest adjustments
