

# INVACARE® Birdie EVO Compact

The Birdie EVO Compact hoist folds easily without needing to use tools, making it easy to transport and convenient to store when space is limited. The compact base makes moving it through narrow doorways simple, while the curved design of the legs allows easy access to comfort chairs and power wheelchairs. As a result, the Birdie Compact is a popular choice for use at home or in aged care facilities.

The Birdie EVO Compact includes all the new improved features of the EVO range, including the new user-friendly hooks, Smartlock™ quick release spreader bar attachment and ergonomic push handle.

The improved curved spreader bar and curved boom design, makes it easier to maintain eye contact with the patient while transferring. With the choice of spreader bars and a full sling range, you are ensured flexibility to suit every individual's needs.
