

# ETAC CLEAN (HEIGHT ADJUSTABLE) Shower Commode

The Etac Clean shower commode chair has been developed to provide a positive and safe bathroom experience for both users and carers.

The width of the push handle makes it easy to manoeuvre but doesn't impact on the overall slim neat design. The chair is open at the back to facilitate access and the upright handle ensure it fits over even wall-mounted toilets.

The unique foot support has a curved surface which contours to the feet's natural profile and can be pushed under the seat when not required.

The seat height can easily be adjusted without tools up to 60cm to make transfers easier or to fit perfectly over the toilet. There are also a range of foot and calf supports to accommodate different requirements.

Tool - less height adjustment

Fully open at rear

Push handle has no welding seams or holes

Removable, swing away arm supports

Curved footplate with side protection

Footplate slides under seat

4 lockable castors

Range of accessories available

Regulatory Compliance:  
EN ISO 10993-1 | SS EN 12182

Large range of accessories available to accommodate specific patient needs

Seat height can be adjusted to suit patient and fit perfectly over different height toilets

Seat Width	Seat Depth	Seat Height	Overall Width	Product Weight	Warranty	S.W.L.
48cm	44cm	47.5 - 60cm	54cm	14.2kg	5 year	130kg
