

RBE 777 | 778 Excel X3 Wheelchair

The Excel X3 Wheelchair is an extra wide, heavy duty wheelchair with a frame constructed of sturdy steel. It is ideally suited to demanding environments such as hospitals, nursing homes or other institutional use.

The frame features tough steel cross bars to reinforce the frame structure and allows it to safely manage individuals weighing up to 250kg.

It is available in two extra wide seat widths, either 56cm or 61cm for additional comfort of bariatric patients.

The 60cm mag self-propel wheels are quick release removable and the “soft ride” polyurethane tyres are very durable and never require inflating.

Heavy duty, extra wide steel construction

Quick release removable rear wheels

Durable “soft ride” polyurethane tyres

No tyre inflation required

Wide solid front castors

Detachable footrests - swing inward and outward

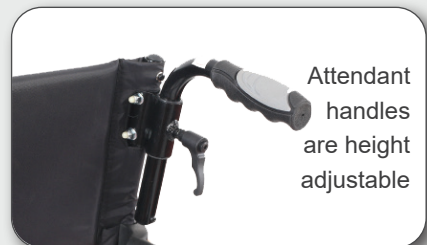

Park brake handle below seat height - easier side transfers

Padded spill proof nylon upholstery fabric

Padded armrest can be flipped up or removed completely

Attendant handles are height adjustable
