

## RAIZER II LIFTING CHAIR

The Raizer II Lifting Chair – the perfect solution for those who have trouble getting back on their feet after a fall.

With its battery-operated mobile design, this lifting chair can help a fallen person up to an almost standing position in just a few minutes.

Designed to be easy to use, the Raizer II can be operated by just a single assistant, requiring only a helping hand and limited physical effort. The chair is comfortable and secure for the fallen person, ensuring a smooth and stress-free lifting experience. With a weight capacity of up to 150 kg, the Raizer II can accommodate a wide range of users, making it suitable for use in a variety of settings, such as hospitals, nursing homes, and private residences. One of the standout features of the Raizer II is its ease of assembly.
