

BRO 202A-8 Modula Quad Walker

The Modula Basic Quad Walker has a heavy duty construction with a safe working limit of 130kg yet is made out of lightweight aluminium and itself only weighs 8.4kg.

The ergonomically shaped handles can be adjusted to suit the user's height and feature the new "light touch" lock brake system.

The 20cm flat ridged wheels minimise wheel wobble and are equally suited for indoor or outdoor use.

The padded backrest is comfortably rounded and along with the seat and bag, can be easily folded down without the need for being removed when collapsing the walker for transport or storage.

- Lightweight aluminium construction
- "Light touch" lock brake system
- Ergonomic hand grips
- 20cm flat ridged wheels - minimise wheel wobble
- Suitable for indoor and outdoor use
- Height adjustable handles
- Easy fold rounded backrest
- Fixed seat height - 56cm

The padded vinyl seat is spill proof.
The nylon storage bag is opaque to prevent visibility of valuable items and does not need to be removed before folding the walker
