

# Eva600EE, with low legs

SystemRoMedic™

SWL  
270 kg  
600 lbs

## Strong, safe and easy to manoeuvre – with electrical base widening and low legs

Eva600EE is a versatile mobile patient lift for all lifting situations, especially for heavier users weighing up to 270 kg/600 lbs. When used with Handicare's functional and easy-to-use SystemRoMedic™ lifting accessories, Eva600EE is the right choice for lifting in connection with transfers to and from the floor, chair or bed, as well as for horizontal lifting and gait training. This variant of Eva600EE features low legs and is especially suitable for use with lower beds.

# Eva600EE, with low legs

- Extra strong and stable, SWL 270 kg/600 lbs
- Aluminium for low weight – easy to manoeuvre
- Mast adjustable to three height positions – large lifting range
- Height-adjustable handle bars – comfortable and ergonomic working positions
- Stable aluminium sling bar with reliable safety latches
- Wider sling bar providing a more open lifting sling - ideal for larger users
- Special version with low legs for use with lower beds
- Encapsulated twin castors in the rear – easy rolling and maintenance-free
- Double front castors with a diameter of 35 mm/ 1.4"
- Electrical base widening
- Electrical emergency stop button readily available on the control box
- Electrical and manual emergency lowering
- High capacity battery with long service life
- Built-in charging
- Quick guide on the lift
- Many accessories for safe, easy and individually adapted lifting of users

SystemRoMedic™ is a complete solution for easy transfers. The concept encompasses four product areas that meet most needs in different transfer situations.

**Transfer**, between two locations. **Positioning**, within the same location.

**Support**, for mobility. **Lifting**, both manual and mechanical.
